

Above and below, you are seeing just a few pictures taken on our As You Like It Main Safari 2017. I do my safaris a very special way, with the hope that by the end your lives will be changed forever for the better. The end result is from a team, who have learned to work well together. Among our clientele are award winning professional photographers, amateurs, wildlife lovers, families and adventurers. However you wish to do it, we will produce it just as we know you will like it. Vivien Prince.
